MEDIA STATEMENT

CALLING ALL SERVICE PROVIDERS!

The Community Schemes Ombud Service (CSOS) invites all interested service providers to present their respective business models software capabilities and or business systems to our panel of Executive Managing Agents (EMAs).

Whether you are a managing agent, a provider of software and systems to community schemes, or a loan facilitator, we would like to know more about your business models and your successes!

Our EMAs are quite eager to gain as much knowledge as possible to set them on their path to greatness.

If you are willing to share your knowledge, please get in contact with Johlene Wasserman at our offices via email johlene.wasserman@csos.org.za by no later than 10 February 2023.

The date and time for further engagement will be communicated in due course.
